General Information 64
Compulsory Certification Trades in Alberta 66
Optional Certification Trades in Alberta 67
Field Services.....68

ACCOUNTANTS - Certified General Accountants

- Students must have a high school graduation diploma or the equivalent, and Canadian citizenship or landed immigrant status.
- To be accredited as a Certified General Accountant (C.G.A.), it is necessary to complete a 17 course program and to meet the Public Speaking Written Communication and Practical Experience requirements. The academic program includes micro-computer technology and allows specialization at the fifth level in management accounting, financial or public practice.
- Advanced standing can be obtained for equivalent courses taken through a recognized university, college or other professional program.

Contact:

The Certified General Accountants
Association of Alberta
#1410, 555 - 4 Avenue S.W.
Calgary, Alberta
T2P 3E7
Tel. 299-1300
Fax. 299-1339

#310 Terrace Plaza
4445 Calgary Trail South
Edmonton, Alberta
T6H 5R7
Tel. 436-2164
Fax. 436-7962

ACCOUNTANTS - Certified Management Accountants

- CMAs are the only specialists whose professional designation blends essential advanced management practices with technical accounting fundamentals to provide the broad business perspective required to effectively influence strategic, tactical and operational decision-making.
  The Society of Management Accountants is the only professional organization dedicated exclusively to accreditation, research, career management and professional standards in management accounting.
- Those individuals accepted for enrollment in the CMA Profesional Program have successfully completed the Pre-Professional Syllabus, an entrance examination and are Canadian citizens or landed immigrants.
  The Professional Program blends practical experience and professional studies in a two-year advanced program that adds value to business degrees and diplomas. Working as members of the management teams in simulated work situations, candidates learn about and apply advanced studies in management accounting, management skills, and standards of professionalism.
- Individuals must complete the Pre-Professional Syllabus before applying to enrol in the CMA Professional Program. The Pre-Professional Syllabus provides knowledge of solid technical and conceptual foundations in accounting systems; an understanding of the management process and its related disciplines; skills in assessing the strengths of computer applications; and the use of quantitative techniques. Courses in the Syllabus are offered through business programs at universities, colleges and technical institutions.

Contact:

Society of Management Accountants of Alberta
#1800 One Paliser Square
125 Ninth Avenue, S.E.
Calgary, Alberta
T2G OP6
Tel. 269-5341, Toll free 1-800-332-1182
Fax. 262-5477

ACCOUNTANTS - Chartered Accountants

- The usual minimum admission requirement is successful completion of a university degree. Mature Students, Certified Management Accountants and Certified General Accountants may be exempt from the degree requirement depending on work experience and Graduate Management Admission Test (GMAT) score of 550 or better. All registered students must complete a specified series of university courses as part of the university degree, through post-degree studies or on an individual basis.
- To be certified as a chartered accountant (CA) in Alberta, it is necessary to successfully complete the Qualification Course and Examination, Integration and Analysis Course, the Uniform Final Exam (UFE) and 30 months of practical experience with an approved CA firm.
- In order to perform certain statutory or public company audits in Alberta, the auditor must be a member of the Institute of Chartered Accountants of Alberta.

Contact:

Student Registration Administrator
The Institute of Chartered Accountants of Alberta

Other: 1-800-232-9406
Fax. 425 8766

ACUPUNCTURISTS

- Must complete a program of studies approved by the Health Disciplines Board, or a program assessed as substantially equivalent.
- Must satisfactorily complete an examination approved by the Health Disciplines Board.
- Must have carried out the practice of acupuncture for at least 500 hours within the two years immediately preceding the date of application for registration.
- Must have a personal interview with the Director of Health Disciplines or a person designated by the Director.
- Must provide evidence satisfactory to the Director of Health Disciplines of sufficient competence in and comprehension of the English language for practice as an acupuncturist in Alberta.

Annual Renewal of Registration

- Registered acupuncturists, must complete and submit a renewal of registration form, pay the applicable fees and, within the two years immediately preceding the date of application for registration renewal, have completed at least 1360 hours of acupuncture practice and 50 hours of educational programs approved by the Acupuncture Committee.

T5J 3S8

AGROLOGISTS

- The Alberta Institute of Agrologists is an association which certifies those who are qualified to use the title Agrologist.
- Training as an Agrologist requires at least four years of University training leading to a degree in Agriculture or equivalent.
- Qualifications are reviewed by the Universities Co-ordinating Council and applicants may be required to write professional examinations.
- Proficiency in the English language is required.
- Registration is not mandatory in Alberta but is required by many institutions as a condition of employment.

ARCHITECTS

- The Alberta Association of Architects is a professional association which registers those qualified as Architects.
- Educational requirements to be an architect are a degree in architecture or its equivalent.
- The Canadian Architectural Certification Board and the Universities Co-ordinating Council assess academic qualifications and foreign equivalencies.
- It is necessary to pass the National Council of Architectural Registration Boards (NCARB) Examinations.
- Three years of practical training are required, two years must be in Canada, including one year in Alberta. Practical training needs to be recorded in a log book provided by the Association and is reviewed periodically.
- To use the title "Architect" and to practice architecture in Alberta, it is necessary to be registered. In Alberta, The Alberta Association of Architects, through the Architects Act, has the responsibility to govern the practice of architecture for the protection of the public. Only registered members of the association who have completed the education, experience and examination requirements may use the title "Architect".

COMBINED LABORATORY AND X-RAY TECHNICIANS

- Training is completion of a 16-month course in laboratory and X-ray technology at the Northern Alberta Institute of Technology.
- Practitioners are registered in accordance with the Combined Laboratory and X-Ray Technicians Regulation, Health Disciplines Act, by applying to the Professions and Occupations Bureau.
- Registration expires on December 31 of each year. Renewal is provided on condition of having been employed at least 700 hours over the last three years with a minimum of 350 hours in both categories. If practice is limited to either laboratory or x-ray but not both, practitioners may be registered with practise rights limited to laboratory or x-ray only.

Contact:

DENTAL ASSISTANTS

- The Alberta Dental Assistants Association is the association which registers those who have completed training as dental assistants.
- Educational requirements are graduation from a dental assisting program which is accredited by the Canadian Dental Association or a recognized program which is 14 weeks in length or longer with an in-school practical component. A challenge program is offered to dental personnel who have one year on-the-job training (work experience) in Alberta. Applicants who are trained outside Canada will have their certificates evaluated by the Canadian Dental Assistants Association. They will have to take the Theory and Practical Examinations.
- It is necessary to be registered to work in Alberta and use the title "Registered Dental Assistant".

Contact:

DIETITIANS

- The Alberta Registered Dietitians Association (A.R.D.A.) is the Alberta association which registers those who have completed the education and training requirements for a Registered Dietitian (R.D.) The requirements are specified in the Alberta Registered Dietitians Act Chapter R-10.1 (1985) and the Regulations pursuant to the Alberta Registered Dietitians Act.
- Training for a career in dietetics can be obtained through a four year baccalaureate degree with a specialization in foods and nutrition. Graduates must also complete a one-year internship or a two-year practicum in an accredited institution. The internship must be approved by the Canadian Dietetic Association (CDA).
- The Universities Co-ordinating Council assesses academic qualification of applicants prior to admission to A.R.D.A.
- Only active members of A.R.D.A. are legally entitled to use the designation Registered Dietitian or R.D.
- Membership in A.R.D.A. and/or C.D.A. is usually a condition of employment.

ENGINEERS, GEOLOGISTS AND GEOPHYSICISTS

- The Association of Professional Engineers, Geologists and Geophysicists of Alberta (APEGGA) is responsible for licensing qualified engineers, geologists and geophysicists.
- Training as an engineer, geologist or geophysicist requires at least four years of university training.
- It is necessary to be registered by APEGGA to practice as a Professional Engineer, Geologist or Geophysicist in Alberta.
- At least two years of experience acceptable to the APEGGA Board of Examiners is required before being licensed.
- A Professional Practice Examination is required.
- Proficiency in the English language is required (TOEFL score of 600).

Contact:

Mr. R. Ross, P. Eng., Executive Director & Registrar
Association of Professional Engineers, Geologists and
Geophysicists of Alberta
15th Floor, Scotia Place, Tower I
10060 Jasper Avenue
Edmonton, Alberta
T5J 4A2
Tel.426-3990

- The Alberta Society of Engineering Technologists (ASET) evaluates qualifications and certifies technologists and technicians in the field of Applied Science and Engineering Technology.
  ASET awards the following credentials to certified members:-
  - C.E.T. for technicians and technologists in the engineering technologies
  - A.Sc.T. for technologists in the applied sciences other than engineering
  - C.Tech. for technicians in the applied sciences other than engineering
  - R.E.T. for technologists practising professional engineering within the constraints of the Engineering, Geological and Geophysical Professions Act and Regulations.
- Certification as a technologist requires a minimum of two years training at a recognized Institute of Technology or College leading to a diploma of technology accredited by ASET, or an equivalent amount of academics obtained elsewhere.
- Certification as a technician requires graduation from an accepted one-year certificate program (minimum of 1,000 hours of class time) at a recognized technical institute or college, or equivalent academics.
- Experience required for certification at the technician or technologist category is two years work experience at an appropriate level. At least one year of acceptable Canadian experience is required.
- Experience required for registration at a Registered Engineering Technologist category is four years work experience at an appropriate level, plus successful completion of additional examinations.

- Foreign qualifications, and to a lesser degree work experience, may be granted equivalency status after review by the ASET Panel of Examiners and/or Certification Board. Where a shortage in either academics or experience is determined, an Associate membership can be granted while the individual accumulates the necessary academics or experience.
- Individual qualifications are reviewed by the ASET Panel of Examiners and/or the ASET Certification Board.
- Although membership is not mandatory, ASET certification is an indication that certain academic and experience qualifications have been achieved and that ethical standards are enforced. Membership also provides a considerable number of benefits.

Contact:

Mr. Don Byers, C.E.T.

HOME ECONOMISTS

- To be registered as a Professional Home Economist, it is necessary to complete a university degree in Home Economics and have one year of qualified home economics-related work/volunteer experience (preferably with a Professional Home Economist as a monitor). The work/volunteer experience must have been obtained within the previous five years from the date of application for professional registration.
- The Universities Co-ordinating Council's Professional Examination Board evaluates the academic qualification of all persons not having a four year BSc in Home Economics degree from the University of Alberta.
- Registration and/or membership are not mandatory requirements for the practice of Home Economics in Alberta but are required by some institutions as a condition of employment.

INTERIOR DESIGNER

- The Alberta Association of Architects is a professional association which registers those qualified as Licensed Interior Designers.
- All applicants must be certified by the Universities Co-ordinating Council (UCC) and must have a degree from a recognized post-secondary institution or equivalent. The UCC will consider other combinations of education and experience. Individuals applying without degrees will be required to pass examinations designed to test knowledge acquired outside of recognized programs of study.
- Once applicants have been certified by the UCC, they must contact The Alberta Association of Architects to begin three years of supervised practical experience. After 18 months of experience, applicants are eligible to write the registration examinations.
- It is necessary to pass the Professional Practice Examination in Interior Design.
- Three years of practical training in specified areas. Two years must be completed under a qualified Architect or Licensed Interior Designer. Twelve months of the two years must be in Alberta. Practical training needs tp be recorded in a log book provided by the Association and is reviewed periodically. Practical experience is assessed by the Professional Association based on Regulations established in consultation with Government.
- Individuals must be "Licensed Interior Designers" to use this restricted title and practise that part of the scope of practice of architecture.

- Requires a Certificate of Completion from the Western Canadian Board of Examiners for Land Surveyors to enter into articles. In order to obtain a Certificate of Completion, the applicant must either:
  (1) be a graduate of the University of Calgary, Surveying Engineering Program or other recognized university survey program.
  (2) hold a two year diploma in surveying and mapping from a recognized technical school or equivalent and complete the set of academic examinations administered by the Western Canadian Board of Examiners.
  (3) hold a commission to practice as a land surveyor in any province of Canada.
- Upon completion of a minimum of one-half of the articling time, the candidate may be allowed to attempt the four professional examinations, which must all be passed at one sitting. A qualifying examination must then be written, consisting of a technical report of approximately 5000 words, and an oral examination.

REGISTERED NURSE

- The Alberta Association of Registered Nurses is the body which registers persons who meet the requirements for registration as specified in the Nursing Profession Act, Chapter N-14.5 (1983) and the Regulations Pursuant to the Nursing Profession Act.

- Students entering nursing programs should seriously consider including the achievement of a baccalaureate degree in nursing in their career plans. The Alberta Association of Registered Nurses along with the Canadian Nurses Association and eleven provincial and territorial nursing asociations, have taken a position that by the year 2000 the minimum educational requirement to enter nursing practice will be a baccalaureate in nursing degree. A degree can be obtained through basic nursing education or post-R.N. nursing education.

  Basic nursing education may be obtained in several different ways in Alberta. These include:

  (1) University of Calgary program which leads to a Bachelor of Nursing degree.

  (2) Edmonton and Red Deer Nursing Program:

      Collaborative Model which involves the nursing program sites in Edmonton and Red Deer and leads to a Bachelor of Science in Nursing degree or a diploma in nursing.

  (3) Foothills Hospital program in Calgary which leads to a diploma in nursing.

(4) College programs in Grande Prairie, Fort McMurray, Lethbridge, Medicine Hat and Calgary which lead to a diploma in nursing.

Graduates of these programs are eligible to write the Canadian Nurses Association Testing Service Examinations and obtain Registered Nurse status.

- Proficiency in the English language is required.

- It is necessary to be registered to practice as a nurse in Alberta.

Leanne Dekker, Registrar
Alberta Association of Registered Nurses
11620 - 168 Street
Edmonton, Alberta
T5M 4A6
Telephone: 451-0043
Fax: 452-3276

LICENSED PRACTICAL NURSES

- The Professional Council of Licensed Practical Nurses is the body which registers persons who meet the requirements for registration as specified in the Health Disciplines Act, Licensed Practical Nurses Regulation (Alberta Regulation).
- Basic practical nurse education in Alberta is obtained through the Alberta Vocational Colleges in:
  1. Calgary
  2. Edmonton
  3. Lesser Slave Lake/Grouard
  4. any outreach program conducted in rural Alberta by one of the above.
- Graduates of these programs are eligible to write the Canadian Nurses Association Testing Service examination and obtain Licensed Practical Nurse status.
- Proficiency in the English language is required.
- Only those registered with the Council may use the designations "Registered Nursing Assistant" and R.N.A.; "Registered Nursing Orderly" and R.N.O.; "Licensed Practical Nurse" and L.P.N.

OCCUPATIONAL THERAPISTS

- The Alberta Association of Registered Occupational Therapists (AAROT) is the professional and regulatory body for qualified occupational therapists.
- Training to be an occupational therapist requires completion of a baccalaureate degree from an approved university occupational therapy educational program. Part of the training includes a minimum of 1000 hours of fieldwork.
- To practice in Alberta, it is mandatory to be registered with the Alberta Association of Registered Occupational Therapists. Conditional registration in AAROT as a restricted practitioner may be granted to complete eligibility requirements.
- An occupational therapist who has not graduated from the occupational therapy educational program at the University of Alberta will have to obtain a certificate of academic eligibility from the Universities Co-ordinating Council as part of the eligibility requirements for registration with AAROT.

OPTOMETRISTS

- The Alberta Association of Optometrists certifies applicants as eligible to practice in Alberta.
- To practice, a practitioner must be registered with the Alberta Association of Optometrists.
- Training in optometry involves four years of specialized professional education, preceded by at least two years of a pre-optometry university science program.
- Academic qualifications are assessed by the Universities Co-ordinating Council and are approved if the applicant holds a degree in Optometry from an approved faculty or an optometric study substantially equivalent to a degree in Optometry from an approved Faculty. The applicant must pass examinations prescribed by the Registration Committee of the Alberta Association of Optometrists.

PHARMACISTS

- The Alberta Pharmaceutical Association (APha) is the licensing body for pharmacists in the province of Alberta.
- An academic training program of not less than four years at a recognized university is required.
- Qualifications are assessed by the Universities Co-ordinating Council.
- A period of 500 hours of internship in a pharmacy in Alberta must be served prior to taking the provincial examination.
- If the applicant provides proof of full-time practice in another Canadian jurisdiction for the preceding 12 month period, then the 500 hour of internship prior to taking the provincial examination may be waived.
- All applicants must be Canadian citizens or have lawfully been admitted for permanent residence in Canada, or reside in Canada temporarily pursuant to an international agreement.

PHYSICAL THERAPISTS

- The College of Physical Therapists of Alberta (CPTA) is the licensing body for physical therapists. All physical therapists who practice in Alberta must be members.
- In Canada a physical therapist completes a four year baccalaureate program at a university.
- Academic qualifications are evaluated by the Universities Co-ordinating Council to determine if the person is academically eligible for registration. Foreign educated physical therapists, who have successfully completed the Canadian Physiotherapy Association membership examination process since September 1982, may be declared academically eligible by the Universities Co-ordinating Council.
- A national entry-to-practice examination may be implemented in 1993. All new registrants after June, 1993 will be required to successfully complete the examination process. Physical Therapists who are licensed in a Canadian Province in 1993 will be grandfathered from the requirement to complete the examination process.

- The Apprenticeship and Industry Training Division and Field Services Division of Alberta Career Development and Employment are responsible for administering an apprenticeship and occupational training system and its programs. This includes working directly with industry representatives, both employers and employees, to coordinate the development and delivery of programs and services relating to the training and certification of persons working in designated trades and occupations.
- New legislation governing apprenticeship and occupational training in designated trades and occupations has been recently introduced in Alberta. As of January 1, 1992 the Apprenticeship and Industry Training Act replaced the Manpower Development Act of 1976.
- Under the new legislation, it continues to remain compulsory for a person to indenture as an apprentice where the person is being trained to carry out trade-related duties in a designated trade. To become an apprentice, a person must first find employment with a qualified employer who is willing to indenture him/her as an apprentice. Those under 18 years of age must have parental/guardian consent to enter into a contract of apprenticeship.
- Trades training from the first period of apprenticeship to journeyman status takes between two to four years and involves both formal technical training sessions and on-the-job training.
- Apprenticeship examinations are developed in cooperation with industry and are administered by staff of Alberta Career Development and Employment.
- Credit may be granted towards apprenticeship for eligible work experience and training in a designated trade.

- A person who holds a trade certificate which bears an Interprovincial Standards Red Seal is automatically recognized to work in his/her trade in Alberta.
- A person who holds a certificate in a trade which is issued by a jurisdiction or organization other than the Alberta government may apply to Alberta Career Development and Employment for an assessment of his/her trade qualifications. If the person's skills and knowledge in the trade is determined to be equivalent to that of a certified journeyman in Alberta, that person is eligible to receive formal recognition of journeyman equivalency and would be deemed to be certified to work in Alberta.

There are two categories of designated trades in Alberta:

Compulsory Certification Trades - Any person working in this category of trades must be either a certified journeyman or an indentured apprentice, or hold an equivalancy document.

Optional Certification Trades - To work in this category of trades a person must either be a certified journeyman or be deemed by the employer to have the skills necessary to execute the duties of a job at the same level as a certified journeyman or indenture as an apprentice, or hold an equivalancy document.

TRADES DESIGNATED IN ALBERTA AS COMPULSORY CERTIFICATION TRADES:

(Minimum educational requirements for entrance into apprenticeship are shown in brackets)

Appliance Serviceman (Gr. 10 & Math 13 with a "B" average)
Auto Body Mechanic (Gr. 10)
Boilermaker (compulsory entrance exam)
Crane & Hoisting Equipment Operator (Gr. 9)
Electrician (Math 20 & 23)
Electronic Technician (Math 10 with a "B" average)
Elevator Constructor (Gr. 12)
Gasfitter (Gr. 9)
Heavy Duty Mechanic (Gr. 9)
Ironworker (Gr. 10)
Motor Mechanic (Gr. 10 with Math and English 10 or 13)
Motorcycle Mechanic (Gr. 9)
Plumber (compulsory entrance exam)
